

Greening the World's Energy Supply with HelioFuel™

Renewable HelioFuel, like green hydrogen, is created with our carbon-free, ultra-high temperature heat and can be used in applications as diverse as transportation, heavy equipment, and household heating.

HelioFuels

- Hydrogen
- Methanol
- Kerosene (jet fuel)
- Others

Applications

- Transportation
- Heavy equipment
- Household heating
- Any other use of fossil fuels

Heliogen welcomes inquiries from potential partners and customers for HelioFuel.
